

Preferred Vendor Directory

Dear Friends,

Below is a list that has been developed from my personal experience as well as the experiences of more than sixty Brokers at my Metro Broker office in the Denver Tech Center. The Vendors on this list have performed work at a level where Broker's in the office feel comfortable suggesting their services. The Brokers, including myself, do not guarantee the work of the vendors but are giving a positive referral based from actual work performed. It sure beats pulling a name from the yellow pages or google.
